

Geneva DGW – Quartz alarm clock

Instructions manual

1. Quick setup
Insert 1 x AA batteries (not included) by observing the correct polarity signs (+/-) inside the battery compartment.
2. Setting the time
Turn the left wheel at the back of the alarm clock in the indicated direction until the current time is adjusted.
3. Setting the alarm time
Turn the right wheel at the back of the alarm clock in the indicated direction until the desired alarm time is adjusted.
4. Turn on or off the alarm
Slide the switch next to the left wheel at the back of the alarm clock up to turn on the alarm.
Slide the switch down to turn off the alarm.
5. Light
Press the light button on the back of the alarm clock to turn the dial lighting.

If your alarm clock shows larger deviations or a change in alarm tone, insert new batteries.

Consideration of duty according to the battery law

Old batteries do not belong to domestic waste because they could cause damages of health and environment. End-users are committed by law to bring back needed batteries to distributors and other collecting points!
